

**Thermofax Silkscreen Basics
Student Supply List
Maggie Weiss, Instructor**

- Fabric: 8 - 10 FQ of light & dark solid color fabrics, with at least one dark color being 100% cotton
- High contrast black & white photocopies for discussion. Students will be using pre-made screens in class and may have screens made afterwards.
- 18" x 22" piece of cheap felt or canvas on which to print.
- 3 small bottles non-metallic fabric paint (Jacquard, Createx, Pro-chem Pro-Fab. Avoid Craft paint.) Opaque paints work best on dark fabrics.
- Styrofoam produce tray in which to set messy squeegee and spoons
- Plastic spoons for your paint
- Dishpan in which to carry your screen to the sink
- Spray water bottle
- Large absorbent rag for drying your screen
- Smock or work clothes.
- Drop cloth to cover and protect table

Kit Fee includes hand outs, Thermofax silkscreen, frame, frame tape, squeegee, sample paints, discharge paste, foil glue, foil, Wonder Under and more.
